2026 GLASSWARE HORECA CATALOG

ARDACAM

Made in Türkiye

ArdaCam

Founded in 1989, ArdaCam has been one of the pioneers in bringing spun glass craftsmanship to the global stage.Over the years, at its plant in Istanbul,Türkiye through its propriety designs, the company has expanded its production and export network to 80 countries, achieving a portfolio over 2.000 unique molds for plate and bowl manufacturing.

In 2022, ArdaCam embarked on a new journey by entering the HoReCa sector with the same dedication and expertise.

To meet the demanding conditions of professional kitchens we focused on developing strong and scratch-resistant glassware. As a result, our collections are not only visually striking but also durable.

Today, ArdaCam Horeca collections are represented in 50 countries, offering chefs uniquely designed glassware that elevates their presentations into true works of art. Throughout this journey, we have collaborated with consultants and renowned chefs from various countries to develop a product line that combines aesthetics with functionality.

We strongly believe that success comes through constant improvement. Our goal is to combine the traditional spinning technique with the chefs' masterpieces , bringing the spark and nature inspired forms of glass to your tables.

horeca@ardaglassware.com

horeca@ardaglassware.com

THE SPINNING METHOD

The spinning method is applied as the molten glass is taken into a mold and rotated around the axis of the mold, and the glass takes shape in the mold. The spinning method has been widely used in every period from the past to the present.

WHY ALABASTER?

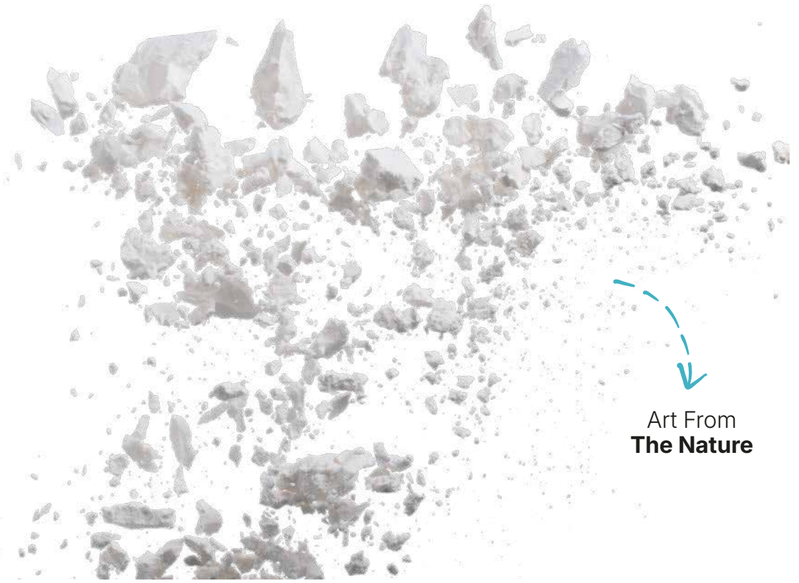

Alabaster comes from a soft and translucent stone that is often used for carving. It has always been used for decorative artifacts.

Alabaster colors are special when applied while fusing glass.

The colors are protected by a layer of glass. There is no contact between the alabaster color and food or drink.

Alabaster decorating allows for giving color to the glass without losing its transparency.

- Colors can be mixed together to create unique results.
- It is a natural stone, which increases the durability of the product.
- Long-lasting and scratch-proof decoration
- Suitable for tableware items.
- Lifetime dishwasher-safe guarantee.
- Possible combination with other materials.

MICROWAVE SAFE

DISWASHER SAFE

100% RECYLABLE

COLOR THAT LASTS A LIFETIME

DURABILITY

MORE RESISTANT TO SCRATCHING THAN PORCELAIN

horeca@ardaglassware.com

ELEGANCE SERVED AT EVERY TABLE

We aspire to create products that combine elegance and allure.

horeca@ardaglassware.com

For the

Chefs

Our 100% handmade product collections will complement your dishes.

For the

Chefs at Heart

To make your table presentations remarkable.

For the

Presentation

We bring spark to the table!

For the

Tables

Include our stylish and timeless designs on your tables.

CARE TAKING GUIDE

Wash before first use.

Diswasher Safe
Place glassware in your machine's basket in a single layer, ensuring they are not packed tightly, the plate edges are positioned safely and do not come into contact with metal. Do not overload the dishwasher beyond its capacity.

More Resistant to Scratching than Porcelain.

Lifetime Color Resistance

Dry glass plates and bowls immediately after washing with a microfiber cloth to prevent water spots.

Wait for the items to cool down before handling them after the dishwasher cycle.

Use in microwave oven in accordance with microwave oven manufactureres' user's manual.

Not suitable for oven use.

Not suitable for cooktop use. Do not allow the contact with open flames.

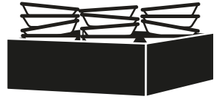

Always handle glassware gently.

Do not pour cold liquid into hot product or hot liquid into cold product.

Maintain a steady temperature change, ensuring the variation does not exceed 65°C, to preserve the product's integrity.

Bustrays should be loaded appropriately to avoid overloading.

Plates and bowls should be stacked up to a maximum height of 25 cm.
(May differ depending on the product's form.)

Dispose of glass plates and bowls according to local recycling regulations when they reach the end of their life.
